

Realising the **Vision** of Transforming Hardware Industry

Truly out-of-the-box thinking, determined actions and a passion for bringing change, certainly pave the way for desired outcomes. At Ferguson, we are committed to infusing novel and innovative ideas in the way hardware accessories are manufactured and marketed.

We are India's one of the leading hardware manufacturing company, passionately engaged in designing, crafting and delivering innovative and concept based hardware fittings and fixtures. We are based in Rajkot, Gujarat's fastest developing city, known as India's hub for hardware products.

We are supported by decades-old rich experiences in the hardware industry and have gained deep insights into the needs and choices of the users. The brand "Ferguson" was launched in 2015 and since then, riding on the wave of innovations and exceptional quality, we have been at forefront of the market.

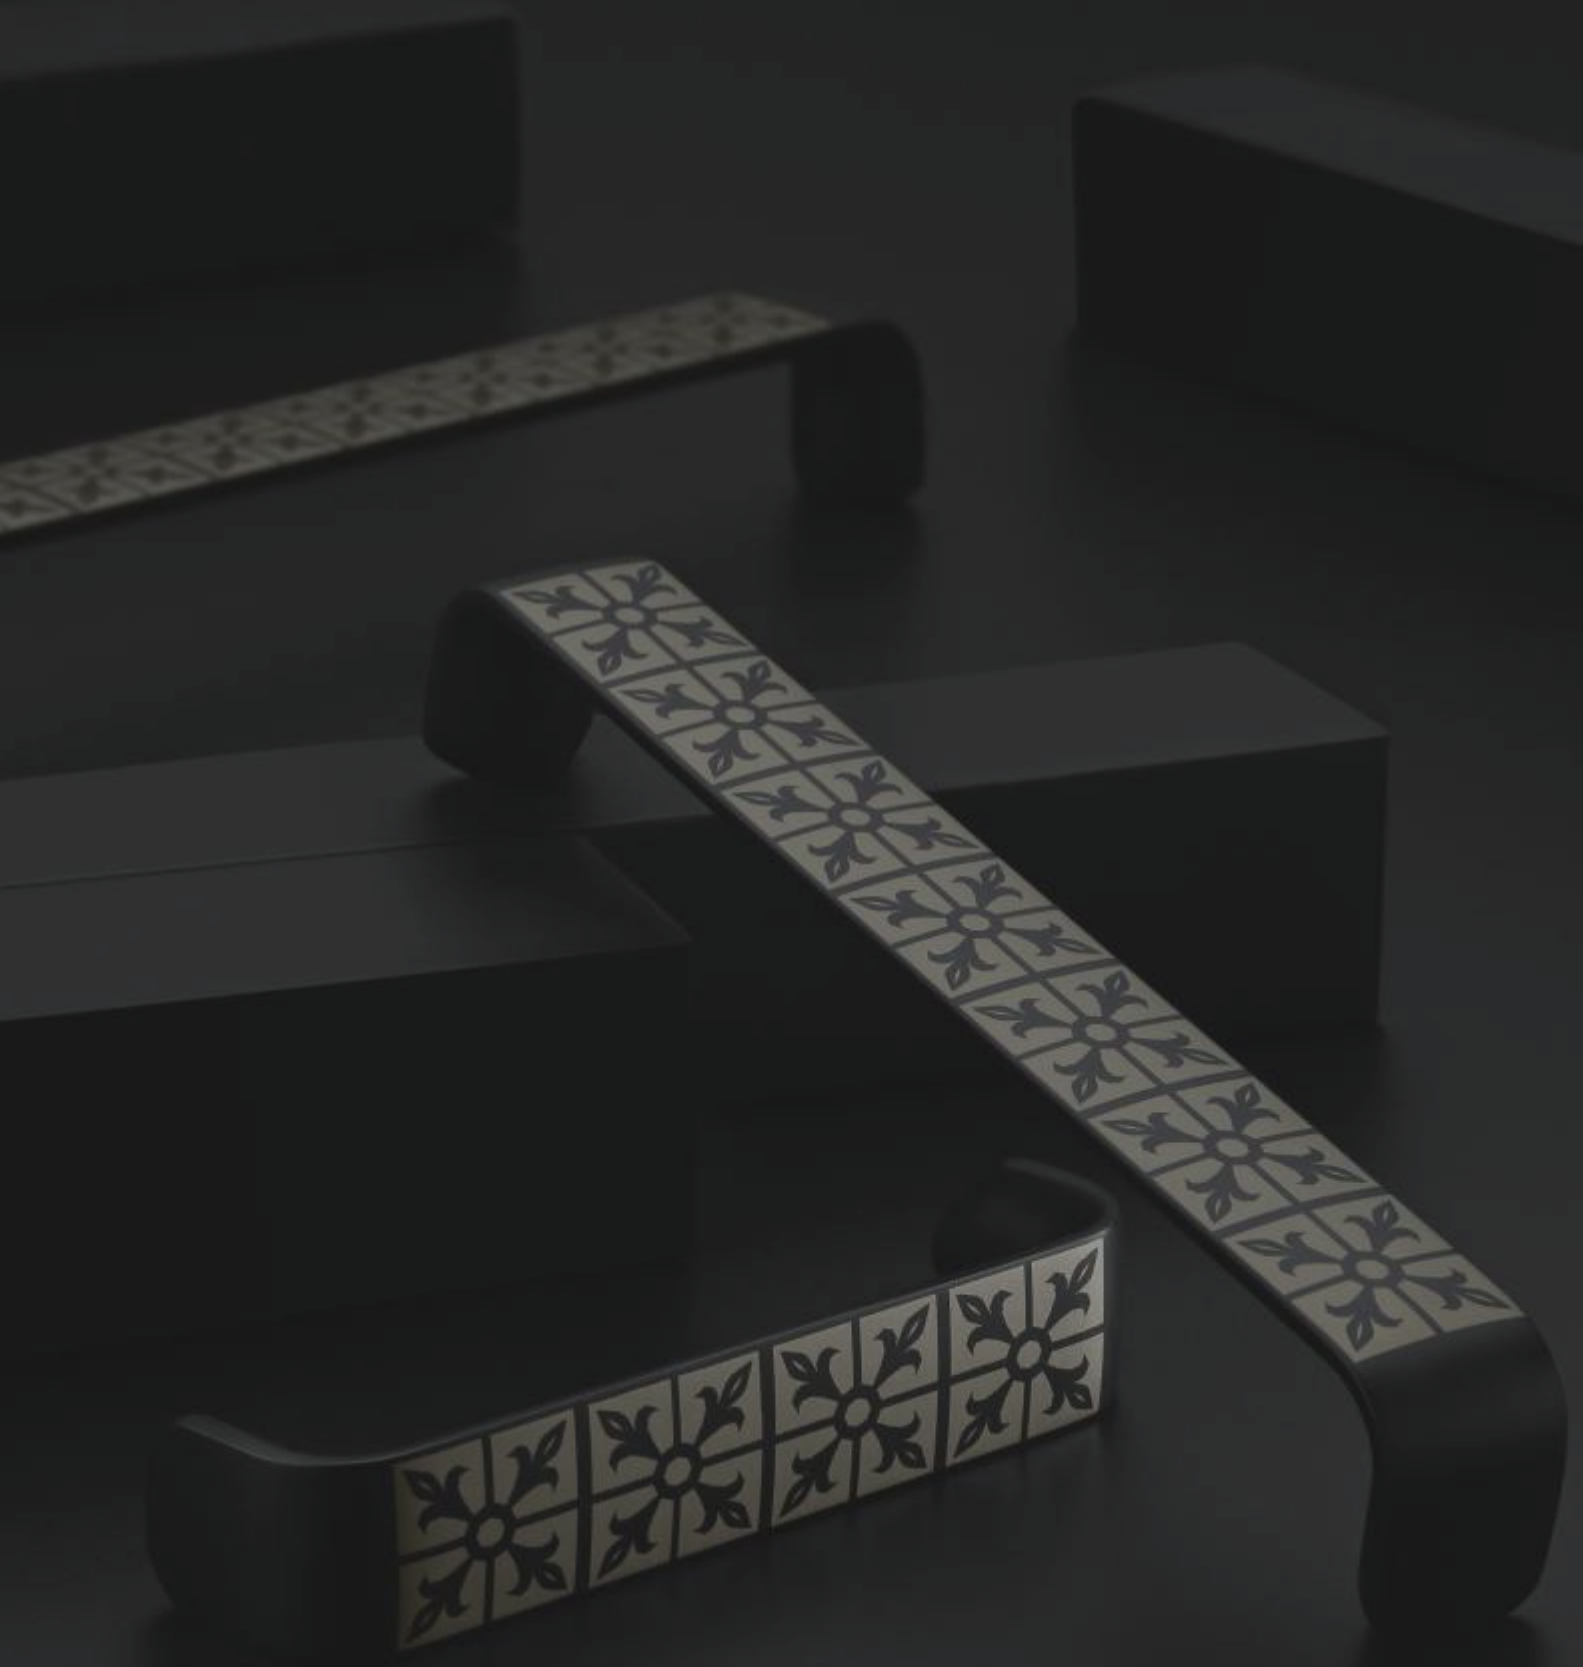

Equipped with our own state-of-the-art design studio, well-equipped R&D facility, manufacturing and processing plant with top-notch machinery, and a quality check unit, all spread in about 9000 sq. feet area, Ferguson is transforming the way hardware accessories are manufactured.

The company has pioneered a lot of new developments in the hardware sector. While winning laurels in the Indian subcontinent, we have also kept on expanding our wings globally and have enhanced our footprints across the globe.

Once you are on the path to fame, it is always an illuminated and joyful experience, but it takes tremendous hard work and support from associates and customers to reach there.

Our journey to glory could not have been possible without the wholehearted encouragement from our well-wishers, who continuously encouraged us to raise our bars of excellence.

Thank you for being the force behind Ferguson!

Feel the Difference

The world is full of innovations and at times, one may find it difficult to differentiate between the mundane and the exotic. Especially in the world of architectural hardware, things get quite ambiguous; because it is always difficult to fathom the quality only by evaluating what meets the eyes.

Things may look almost identical, but they may have inherent inequalities. What is superior always tends to be great at its core. Specifically, this is the reason we at Ferguson have focused on creating masterpieces that give simply exceptional feel and experiences to its users.

Brand Ferguson offers you the widest choice of material, finishes, and design when it comes to innovative handles and knobs. And yes, all our offerings have even more punch packed inside than what meets the eyes!
